

**A****Act BGC Gene Expression****B****Act vs Red: Epigenetic Control**

| Metric                 | Act  | Red                |
|------------------------|------|--------------------|
| Genes with methylation | 1    | 3                  |
| Coordinated genes      | 2    | 3                  |
| SARP methylation       | None | redZ (coordinated) |

**C****BGC Expression Comparison****D****Differential Epigenetic Control Model****Act BGC****Red BGC**

actII-ORF4

redZ

(Unmethylated)

(6mA coordinated)

↓  
Mixed  
expression

↓  
Strong  
upregulation

**Epigenetic control: Red > Act**
